

Qualcomm Stadium has the second largest parking lot in the National Football League (18,500 spaces). Despite this fact, our parking lot normally runs out of available spaces for sold out events. If the lot is full, we encourage you to consider one of the following overflow parking lots:

Pacific Bell Building parking lot (adjacent to the stadium) Take Friars Road west to Northside Drive. Parking is \$10.

Marriott Mission Valley. Take Friars Rd. and exit Qualcomm Way to Rio San Diego Dr. Parking is \$15. Take the San Diego Trolley to access the Stadium from Rio Vista Station.

San Diego State University. From I-8, exit College Avenue and go south. Paid visitor parking is available in designated campus lots. Parking rates vary by location. Take the San Diego Trolley from the SDSU Transit Center to access the Stadium.

Town and Country Hotel. Continue on Friars Rd. West past Fashion Valley Mall and exit Fashion Valley Rd. Parking is \$15. Take the San Diego Trolley from the Fashion Valley Station to access the Stadium.

We encourage fans to research alternative traffic routes when attending sold out events. Interstate 15 to Friars Rd is the most congested traffic artery into Qualcomm Stadium and you can expect heavy traffic delays beginning four hours prior to the start of an event. We strongly urge guests to arrive early, carpool or use the Trolley.
